

Meeting Summary

Date: 3/29/2020

Time: 12pm to 2pm

Participants: Stephanie Petronella and Brian Louis

Discussion:

Feature development progress

Testing

Cycle intent

A new feature

Getting the game running

Decisions/Accomplishments:

Changed the cycle intent to reflect changes in planned feature completion.

Approved that Stephanie tests feature 3 (car motion code) and feature 6 (multiple car selection).

Assigned Brian to testing feature 1.

Approved a new feature called Lap System (feature 7).

Designed and created the documentation for feature 7, assigning Stephanie as the coder and Brian as the tester.

Got the game code running on Brian's computer for the first time.
