G4RCE RACER

Menu

Play

Begin the race after selecting a track and car. Look out for obstacles!

Track

Select a pre-made track, or upload your own Tiled track! The last track picked will be the one you play.

Garage

Pick the color of your car

Options

View controls

Quit

Close and Exit the game

Coming Soon: Making Custom Tracks

1) Download Tiled at https://www.mapeditor.org/
2) Use the Official Tileset to draw a track
   (Hint: Make collisions using an Object layer)
3) Save and name your creation
4) Head into the Track menu and select "Custom Track"
5) Upload your track!

Coming Soon: Create your program!

Instead of playing with your keyboard, the computer does it for you!

Write a program that drives your car around the track and avoids obstacles! Show how much better you are at programming than your friends!
